SUMMARY

Web developer and regional manager with strong experience in building modern websites and supporting early-stage startups. I work with tools like Next.js and Tailwind CSS to build responsive web apps. As a Startup Garage regional lead, I scout startups, guide them through our residency process, track, mentor and prepare them for investment. I enjoy solving problems, working with founders, and helping ideas grow into real businesses.

SKILLS

• HTML, CSS, TailwindCSS • JavaScript, TypeScript, AlpineJS • ReactJS, NextJS • Playwright for e2e testing	• API, Git • SEO best practices • Web performance optimization	• Problem-solving & teamwork • Mentorship & startup support

EXPERIENCE

Front-End Web Developer, Fiverr, February 2021 - November 2023

- Built and deployed interactive web platforms.
- Provided support in fixing web app challenges.
- Collaborated with more than 50 clients to ensure more than 130 successful project outcomes.

Front-End Web Developer, Upwork Inc., April 2022 - Current

- Assisted in developing a search engine optimization strategy for websites.
- Developed applications by employing cutting-edge technologies such as TailwindCSS, ReactJS, and NextJS.
- Built robust relationships with clients.

Front-End Web Developer, Independent agent with Japanese Developer, July 2021 - Current

- Have been successfully working on high level projects over the past three years on more than 10 big projects.
- Got great skills working on server, testing and thinking as a developer.
- Used PHP, Blade, JQuery, Playwright and many more tools and libraries.

Regional Manager at Startup Garage, February 2025 - Current

- Sourced and evaluated 30+ early-stage startups in the region
- Accepted 14 startups into Startup Garage residency and doing mentorship
- Mentored 4 startups that secured $70K+ in VC funding through tailored support and investment readiness
- Managed the full startup pipeline: scouting, residency preparation, investor readiness, tracking and mentorship
